BOARD OF DIRECTORS' REPORT

For the year ended 31 December 2022

In the name of Allah, the Most Gracious, the Most Merciful,

On behalf of my colleagues, members of the Board of Directors, the first quarter of 2022 was marked by a period of gradual market recovery following the COVID-19 pandemic. The economic climate shifted in the second quarter, as inflationary pressures began to exert themselves throughout the remainder of the year. Geopolitical turmoil, driven primarily by the Russia and Ukraine war led to disruptions in the global supply chain, which, when coupled with monetary and fiscal stimulus, contributed to a sustained period of inflation. Central banks around the world including the Federal reserve responded by raising interest rates multiple times throughout the remainder of 2022.

In response to global market volatility and record inflation levels, Gatehouse adopted a more selective and cautious stance towards pursuing investment opportunities, until capital markets and pricing stabilize. Despite the lack of acquisition activity in 2022, Gatehouse Capital net profit remained healthy at KD 658 thousand in 2022, down from just over 1 million KD in 2021, driven by the sale of USIPA III and SIP investments.

In the fourth quarter of 2022, Gatehouse Capital was re-acquired in full by The Securities House from Gatehouse Bank, as part of re-structuring efforts to optimize the business operations of the Gatehouse Financial Group. Along with the shift in ownership, a new Board of Directors was appointed.

Gatehouse Capital currently has assets under management of just under \$1 billion, spread across the US and UK markets, across various sectors including the office, industrial, hospitality and residential sectors. All sectors saw some degree of cap rate expansion and a slight decrease in valuations, owing to the impact of inflation on interest rates and cap rates, although the industrial sector was less affected by these market forces. Except for the hospitality sector, which is still recovering from the COVID-19 pandemic, Gatehouse's investments have shown a great degree of resiliency through the volatile market climate.

Gatehouse Financial Group is always seeking lucrative investment opportunities to present to its clients. The market circumstances presented a particularly challenging backdrop which made income-producing transactions with compelling risk-adjusted return prospects more challenging to acquire and suitably structure.

Despite the lack of acquisition activity, the market landscape presented a very compelling opportunity to exit some investments in the United States of America at attractive cap rates, owing to sustained capital flows into commercial real estate, following the downturn in risk assets. In the second quarter of 2022, Gatehouse Capital managed to capitalize on the strong degree of cap rate compression in the industrial sector since acquisition, by selling USIPA III, returning 52% over clients' initial capital over a period of just over three and a half years. Furthermore, in the fourth quarter of 2022, the final three properties in the SIP portfolio were sold, culminating in an exceptional return on investors equity for the overall portfolio of about 42%.

The US commercial real estate witnessed a slowdown towards the third quarter of 2022, after strong deal flow at the start of the year. Buyers and sellers of commercial property entered a period of price discovery and lenders became more cautious about the types of properties they would lend against.

The industrial sector in the US has continued to see unprecedented levels of demand for long-let triple net leased properties, due to its inflation hedging characteristics and stable, growing income profile. Gatehouse has strategically partnered with astute industrial operating partners Brennan Investment Group in the United States of America for all its US-based industrial investments. The strength of the partnership has enabled Gatehouse Capital to successfully navigate a volatile market climate. Gatehouse Capital will continue to seek the best-in-class operating partners to provide the most suitable investment products which adapt to the market cycle.

Fahed Faisal Boodai

Chairman

CORPORATE GOVERNANCE REPORT

For the Year Ended 31 December 2022

Gatehouse Capital K.S.C.C. believes in necessary and important implementation of rules of corporate governance in line with the interests of the Company and its shareholders. The Company also believes that compliance with the rules of corporate governance preserves the Company's and shareholders' equity, as these rules ensure disclosure and efficiency and enhance the shareholders' trust on the board of directors and, hence, increase productivity.

In accordance with the instructions and decisions issued by the Capital Markets Authority (CMA), in particular those stated under Article 7.3 of Module Fifteen "Corporate Governance" of the Executive Bylaw of the Law No. 7/2010 regarding the Establishment of the Capital Markets Authority and Regulation of Securities Activity and the amendments thereto, we are pleased to enumerate below the actions taken during 2022 to fulfill all the regulatory requirements and adopt the corporate governance policies in line with the relevant CMA instructions::

Rule (I): Balanced Structure of the Board

I. Criteria of Board Membership:

The Board of Directors (BoD) of Gatehouse Capital comprises of 5 members. BoD formation considers, inter alia, qualifications, diversified experience and professionalism. In addition, most of BoD members are non-executive directors and still carry out their duties till the end of their board membership on 26 May 2024. BoD includes one independent director reflecting a balanced structure that enables BoD discharge its duties and responsibilities by laying down the Company's strategy and policies, setting its targets and overseeing the performance of the executive management. The following table sets out the names of qualifications of BoD members:

Name	Designation	Qualification & Experience	Election/Appointment Date
Fahed F. Boodai	Chairman Non-executive	MBA 25-year experience in finance and management	27 December 2015
Abdulaziz S. Al-Bader	Vice Chairman/Non-executive	MBA, 42 year experience in finance and management	14 march 2017
Mohamad T. Al-Tahawy	BoD Member/Non-executive	MBA, 32 year experience in finance and management	27 December 2015
Khaled A. Al-Baijan	BoD Member/Executive	MBA International and Diplomatic Relationships 16 year experience in finance and management	28 March 202 I
Abdullah I. Al-Ghanim	BoD Member/Independent	Bachelor of Sciences, 12 year experience in finance and management	23 October 2018

2. Board Meetings

BoD meetings are regularly held based on an invitation by the Chairman. For the purpose of BoD meetings, each BoD member is provided with the meeting agenda along with the related information and data at least three working days prior to the scheduled date of meeting. BoD approves its agenda in the meeting that shall not be valid unless it is attended by half of its members, provided that the number of attendees should be at least three members. Decisions are unanimously passed. The Company's Memorandum and Articles of Association govern BoD meetings and attendance thereof and handling the irregular attendance of BoD meetings. During the year ended 31 December 2022, BoD held 9 meetings as tabulated below:

The Board of Directors Meetings During the Year 2022

Name of Board Member	Meeting (I) held on 16.01	Meeting (2) held on 17.01	Meeting (3) held on 10.02	Meeting (4) held on 27.03	Meeting (5) held on 25.05	Meeting (6) held on 14.08	Meeting (7) held on 04.09	Meeting (8) held on 26.09	Meeting (9) held on 14.11	Number of meetings

5. Abdullah I. Al-Ghanim	V	√	√	V	√	V	V	V	V	9

CORPORATE GOVERNANCE REPORT

For the Year Ended 31 December 2022

3. Recording, handling and filing BoD meetings' minutes

The BoD Secretary, who is a company employee, records and maintains all minutes of the board meetings and the reports to be submitted by/to BoD. The Board Secretary is also responsible for coordinating with the BoD members and communicating the meeting dates three days prior to the scheduled date.

The Company's management maintains a record of all minutes of BoD meetings in order of the years of the meetings. Such record includes the place, date and start/end time of BoD meetings, the present and absent BoD members, the invited persons and the minutes of the discussions setting out the voting process. Such records are properly saved for easy reference.

Rule (2): Assignment of Roles & Responsibilities

The Company's Articles of Association define the roles and responsibilities of assigned to BoD. In addition, the BoD Charter defines the BoD roles including monitoring performance of executive management and ensuring compliance with the BoD approved business strategy and plans. The Executive Committee Charter and the relevant policies and procedures approved by BoD assign certain tasks and responsibilities to the executive management. Moreover, the approved Authority Matrix sets out all powers and authorities delegated to the executive management and those assigned solely to BoD.

Board of Directors:

BoD is responsible for laying down a company-wide strategy and the key business plans. The other tasks of BoD include:

- 1. Setting the company-wide targets and strategy, and overseeing the company-wide performance.
- 2. Approving the annual budgets and monitoring any deviation.
- 3. Laying down the Company's policies and bylaws and ensuring that these policies are clear and transparent for decision making purposes, and are in line with the principles of corporate governance approved by BoD.
- 4. Approving the interim reviewed and the annual audited financial statements.
- 5. Forming BoD committees (audit, risk management and remuneration & nomination) and approving the charters that govern their business.
- 6. Overseeing performance of BoD members and the executive manage as per the approved performance indicators

Major Highlights & Achievements in 2022:

- 1. Discussed and approved the business plan and the budget for 2022.
- 2. Discussed and approved the audited financial statements for the year ended 31 December 2021.
- 3. Discussed and approved the corporate governance report for the year ended 31 December 2021.
- 4. Discussed and approved the recommendations of Remuneration & Nomination Committee, Audit Committee and Risk Management Committee.
- 5. Approved the reports of BoD Committees: Remuneration & Nomination Committee, Audit Committee and Risk Management Committee.
- 6. Approved the quarterly financial statements and budget for 2022.
- 7. Discussed and approved the budget for the next five years 2022-2026.
- 8. Discussed and approved the quarterly Compliance reports.
- 9. Reviewed the liquidity position and future cash flows for 2022.
- 10. Reviewed the summary of existing and future investments, projects and potential opportunities.
- 11. Approved distribution of dividends for the year ended 31 December 2021.
- 12. Discussed the updates regarding the subsidiaries and associates.
- 13. Reducing the company's capital, which is in excess of its business needs, and amening the company's memorandum and articles of association.
- 14. Reviewed and approved the acquisition of the company.

CORPORATE GOVERNANCE REPORT

For the Year Ended 31 December 2022

BoD Committees:

In order for BoD to fulfill the corporate governance rules in efficient and effective manner, BoD formed three BoD Committees that help enhance BoD efficiency in the management of the Company's business.

Duties and responsibilities as well as the authorities of each committee are assigned by BoD and documented in the form of a chart for each committee. Formation of each committee includes BoD non-executive members, who have the relevant expertise. These committees are:

- · Audit Committee,
- · Risk Management Committee, and
- Nomination & Remuneration Committee.

Audit Committee (AC):

Board Audit Committee ("AC") promotes the compliance culture within the Company and ensure the integrity of the financial reporting, adequacy and efficiency of the internal control systems. AC is supervised by, and reports to, the Board of Directors, and submits its recommendations to the Board in terms of its tasks and findings.

The major achievements and decisions of AC in 2022 are:

- 1. Discussed and approved the financial statements for the year ended 31 December 2021.
- 2. Approved the external auditors' report on the financial statements for the year ended 31 December 2021.
- 3. Approved the Internal Control System Review Report for the year ended 31 December 2021.
- 4. Approved reappointment of the external auditors for 2022.
- 5. Discussed the interim financial statement for 2022.
- 6. Approved the quarterly questionnaire on the policies and procedures adopted by the third parties providing Know-Your-Customer (KYC) services related to AML/CFT.
- 7. Discussed the quarterly internal audit reports for 2022.

AC Members:

Sr.	Name	Title					
I	Mohammed Tawfiq Al Tahawy	Chairman	4				
2	Abdullah I. Al-Ghanim	Member (independent)	4				
3	Abdulaziz S. Al-Bader	Member	4				

AC Secretary: Ohood Waleed Abu Ebaid

AC Formation Date	Duration	No of Meetings
19 May 2021	3 years	4

Risk Management Committee (RMC):

Risk Management Committee ("RMC"") identifies, measures, monitor and minimizes the risks to which the Company exposes, submits the sound recommendations to BoD, approves Risk Appetite and ensures that the Company does not exceed such limits of risks after approval thereof by BoD..

The major achievements and decisions of RMC in 2022 are:

- 1. Discussed a comparative analysis of investment against the approved Risk Appetite.
- 2. Discussed and approved the periodic risk reports before filing to CMA.

CORPORATE GOVERNANCE REPORT

For the Year Ended 31 December 2022

AC Members:

Nomination & Remuneration Committee (NRC):

Board Nomination & Remuneration Committee ("NRC") is concerned with nomination of the members of the Board of Directors ("BoD" or the "Board") and its committees and executive management. Such nomination is preliminarily based on the professional experience, technical abilities and the good morals and ethics to ensure that nomination serves the best interests of the Company and its shareholders.

In addition, the Committee lays down the policies and bylaws that govern payment of compensations and benefits for all the job levels in the Company including Chairman, Board members and the executive management in line with the Company's long- and short-term strategy and objectives, in order to attract the highly qualified and competent persons and motivate all staff to achieve the Company's objectives.

The major achievements and decisions of RMC in 2022 are:

- 1. Approved 2022-2027 Human Resources Report and the training and recruitment plan for 2022.
- 2. Approved the bonus for the Company's staff and executive management, the proposed increments, and amending certain iob titles.
- 3. Discussed and approved the annual BoD performance appraisal for 2021.
- 4. Discussed and approved directors' and executive management's remuneration for 2021..

Mechanism applied for BoD members to obtain accurate information on a timely basis

The board secretary provides BoD with the adequate information about the agenda of BoD meeting at least three days before the meeting (unless there is an urgent meeting that requires inviting BoD members within shorter period) to enable them take the right decisions. In addition, the board secretary ensures the timely submission of the reports related to board works, points of agenda and meeting minutes.

CORPORATE GOVERNANCE REPORT

For the Year Ended 31 December 2022

The executive management provide BoD members with several reports and data to keep BoD updated of all the Company's activities and running of its business. Furthermore, BoD and executive management committees provides BoD with the necessary reports on a timely basis. BoD and its committees are provided with all information and data that enable them make sound and timely decisions based on sufficient and accurate information.

Rule (3): Selection of Competent Candidates for BoD and Executive Management

I. Fulfillment of NRC Formation Requirements

NRC is comprised of 3 members including the independent member and presided by a non-executive BoD member. Period of membership and processes are approved by BoD. The Committee meets at least once every year or whenever necessary.

NRC had approved a clear policy that covers remuneration of BoD Chairman and members and the various tranches of fixed and performance related remuneration. The Committee's tasks include proposing nomination and re-nomination of the members taking into consideration that nominees must fulfill CMA requirements.

2. BoD and Executive Management Remuneration Report

Gatehouse Capital adopts a well-defined staff remuneration policy that include a profit-sharing scheme for staff, especially the high performing employees in recognition of their efforts and to foster their dedication and commitment to achieve a targeted minimum profit. This policy aims to increase confidence of the shareholders by ensuring that the minimum profit target shall be realized even before the profit-sharing portion is allotted to staff.

Staff Remuneration:

The gross pool of remuneration is proposed at 7%-10% of net profit before calculation. Such ratio is adjusted for the profit rate to the net profit target before remuneration calculation, as shown in the table of remuneration and benefits paid to BoD members the executive management.

By end of each financial year, and concurrently with approval of the draft financial statements, performance of each employee is assessed against the achievement of the targets preset for each employee at the beginning of the year in addition to his/her personal skills throughout the year.

It is worth mentioning that bonus could be paid to certain employees if they have achieved the target performance such as a percent of the placement fee or the incentive fee collected by the Company even if the Company's minimum target profit is not achieved, subject to approval of NRC and BoD approval for CEO and executive management, and CEO approval for the other employees.

BoD Remuneration:

A fixed amount of annual remuneration is recommended for payment to BoD subject to approval of the Company's financial statements by the general assembly and in conformity with the regulatory and legal requirements. The amount of remuneration is based on the certain criteria like number of committees in which BoD director is a member beside his/her BoD membership, number of committee meetings attended by the concerned director and annual appraisal of BoD in terms of the technical skills and personal characteristics relating to Company's activities.

The following table sets out the remunerations, benefits and compensation paid to BoD and executive management for the financial year ended 31 December 2022:

BoD Remuneration and Benefits										
	Remuneration and E	Benefits through Pa	rent Company	Remuneration and Benefits through Subsidiaries						
No. of Members	Renefits (KL))		and Benefits (KD)	Fixed Bonus a	nd Benefits (KD)	Variable Bonus and Benefits (KD)

No. of Executives	Fixed Bonus and Benefits (KD)				Variable Bonus and Benefits (KD)		Fixed Bonus and Benefits (KD)					Variable Bonus and Benefits (KD)		
	Total Monthly Salaries	Medical Insurance	Tickets	Leave Provision	ETB Provision	Commissions	Annual Bonus	Total Monthly Salaries	Medical Insurance	Tickets	Housing	Transport	Education	Annual Bonus
7	289,251	4,694	33,364	52,411	65,776	38,272	55,058	-	-	-	-	-	-	-

No deviation from the approved remuneration policy has been identified during the year.

Rule (4): Integrity of Financial Reporting

I. Written Undertakings by BoD and Executive Management for Soundness and Integrity of the Financial Reports

The executive management represented in Chief Operating Officer and the Financial Controller undertake in writing to BoD that the Company's reports are presented in fair and sound manner and prepared in accordance with the international accounting standards approved by CMA.

Within the same context, the Chairman declares and undertakes the accuracy, integrity and soundness of the financial statements furnished to the external auditors, and that the Company's financial reports are presented in a sound and fair manner in accordance with the International Financial Reporting Standards (IFRSs) applicable to the State of Kuwait and approved by CMA and that it represents the Company's financial positions as at 31 December 2022, based on the information and reports provided by the executive management and the external auditor and the due care exercised, to ensure the soundness and accuracy of these reports.

2. Fulfilment of Audit Committee Formation Requirements

AC is formed in line with the nature of the Company's business and include experienced members. AC is comprised of 3 non-executive members including an independent director. The Chairman should be a member in this committee that should also include a highly qualified members having experience in accounting and finance. Period of membership and processes are approved by BoD. AC meets at least once every three months or whenever necessary.

In addition, AC promotes the culture of compliance inside the Company by ensuring the soundness and integrity of the Company's financial reporting, and adequacy and efficiency of the internal control systems. The Committee reports to BoD in terms of its duties and findings.

3. Independence and Objectivity of the External Auditor

The Company's ordinary general assembly appoints the external auditor based on a recommendation of AC after verifying that the he is enrolled in the CMA register and fulfills all the requirements stated under CMA decision regarding registration of auditors.

It is also ensured that the external auditors is independent of the Company and its BoD, and he is not engaged in any other tasks for the Company outside the scope of review and audit in a manner that may affect his independency.

Rule (5): Sound Risk Management and Internal Control Systems

I. Fulfilment of Risk Management Department Formation Requirements

An independent unit was informed to be entrusted with for risk management with their officers directly reporting to Risk Management Committee and having the necessary authorities that enable them carry out their duties, excluding financial authorities.

CORPORATE GOVERNANCE REPORT

For the Year Ended 31 December 2022

2. Fulfilment of Risk Management Committee Composition Requirements

RMC is comprised of three members and chaired by a non-executive director. The Chairman is a member in this committee for more authorities and independency. Period of membership is stated under the committee charter. The committee submits is reports directly to BoD that approves its processes. RMC meets at least once every three months or whenever necessary.

3. Internal control systems

The internal control systems are designed to cover all the Company's activities and ensure efficiency and effectiveness of operations. The internal control systems also ensures the dual control by assigning responsibilities and authorities through the approved Authority Matrix and operating policies and procedures that set out all levels of powers and authorities. In addition, the Company ensures segregation of duties, monitoring of all transactions that implies conflict of interest and full disclosure of such translations. The Company also adopts the Dual Control principle to all its operations and activities.

In addition, the Company conducts its internal control system review through an approved independent office to ensure adequacy of internal control systems. An annual report is produced a copy of which is provided to CMA.

4. Fulfilment of Independent Internal Audit Unit Formation Requirements

Internal Audit Unit is established to assess the efficiency and effectiveness of applied internal control systems. The Unit is independent and directly reporting to AC and BoD. Internal Audit Officer is hired by virtue of a decision by BoD and CMA approval.

Rule (6): Promoting Professional Conduct and Ethics

I. Standards of Professional Conduct and Ethics

The Company developed a code of conduct for both BoD members and staff, internal bylaws and the other guidelines for compliance with the laws that govern the Company's operations. It is expected that BoD will issue the sound decisions in all matters to protect the interests of clients, staff and the other stakeholders and maintain a sound environment based on efficient cooperation. In carrying out their duties, BoD, executive management and staff comply with the cost of conduct that requires, inter alia, honesty, integrity and dedication.

Code of Conduct & Ethics sets out the standard acts of every manager, officer or employee with the Company's stakeholders and the public. Such Code aims to ensure that the Company is viewed to others as an institution that complies with high standards of integrity in all its transactions. However, such Code does not address all situations and should not be considered as an alternative of practicing the good judgment and behaviors by the Company's employee.

2. Policies and Controls to Minimize the Conflict of Interest

A Conflict of Interest Policy has been approved to ensure maintenance of the highest level of transparency in reporting the Company's operations. Conflict of interest must be avoided among the employees/directors and their direct family members (i.e. spouse, sons/daughters, parents and siblings) and the Company in all their own transactions.

The aforesaid policy states that BoD should take all the reasonable procedures to detect, avoid or deal with the conflict of interest between BoD/employee, any of their relative/subsidiaries and their customers, employees and agents, or misuse the confidential information of those customers:

BoD should always act in a manner that serves solely the Company's interests. They should set aside their personal interest and discharge their responsibilities for managing the Company in a manner that enhance the public's trust in BoD's integrity and impartiality. Any BoD member may not obtain any gain, directly or indirectly, from his position in such capacity.

A BoD director may not, without approval of the Company's general assembly (provided such approval should be renewed on an annual basis), have a direct or indirect interest in the business or contract concluded for the Company, except for the business concluded through a public tender if such director submits the best bid.

A director shall notify BoD of his/her personal interests in the business and contract concluded for the Company and record such notification in the meeting's minutes. A director having such an interest may not vote on any decision to be passed in this respect. In addition, BoD Chairman should inform the Company's general assembly of the business and contracts to which he is a party. Such notification should be accompanied with a special report prepared by the Company's auditors.

CORPORATE GOVERNANCE REPORT

For the Year Ended 31 December 2022

Rule (7): Accurate and Timely Disclosure & Transparency

I. Accurate and Transparent Presentation & Disclosure

The management of Gatehouse Capital is keen to adopt and follow the highest standards of disclosure and transparency in order to ensure the equal and unbiased treatment of all the existing and potential shareholders and stakeholders. The adopted mechanisms of presentation and disclosures approved by BoD consider accuracy and transparency in presenting the financial and non-financial information and data. Furthermore, the Company's management review the mechanisms and systems of disclosure and transparency on a regular basis to ensure adoption thereof in line with the best international practices.

2. Requirements for BoD Members and Executive Management Disclosure Register

A register of BoD and executive management disclosures was prepared with board secretary. A circular was sent to all members of BoD and executive management to inform the board secretary with any conflict of interest between their direct family members and the Company or the subsidiaries or the companies in which the Company is involved. A declaration and undertaken to this effect is obtained from the members of BoD and executive management.

3. Investor Relations Unit

The Company's management established an Investor Relations Unit that reports to BoD Deputy Chairman and CEO to ensure its independence. The Unit is responsible for providing all information and data to the existing shareholders and investors through the generally accepted means of disclosure including the Company's Website.

4. Development of IT Infrastructure

The Company's management pays special attention to development of IT infrastructure. The key noticeable developments include launching the website that has a separate section of corporate governance along with the interim reviewed and annual audited financial statements, disclosures of the Company-related material information and events and the other data and information that assist the shareholders, potential investors and stakeholders to exercise their rights and evaluate the Company's performance.

Rule (8): Respecting Shareholders' Rights

I. Defining and Protecting the Shareholders' Rights

The Shareholders & Investors Relations Policy approved by BoD provides for all rights of the Company's shareholders and the equal and unbiased treatment of all shareholders holding the same class of shares. The aforesaid rights include the following:

- Dealing of the shares, e.g. registration, transfer, etc.
- Taking part in making the decisions for amendment of the Company's Memorandum and Articles of Association and the other extraordinary decisions that may affect the Company's future/business such as merge, sale of significant portion of assets or dissolution of a subsidiary.
- Monitoring the Company's performance in general and BoD performance in particular.
- Obtaining accurate, comprehensive and sufficient information in a timely manner including the operating and investing strategies in order to evaluate the financial statements of the Company and its performance.
- Charging BoD and executive management members with the responsibilities if they failed in carrying out their duties.
- Receiving the dividends and voting in the general assembly's meetings.
- Receiving a portion of the Company's assets in case of liquidation thereof.
- Electing BoD.

2. Maintaining a Special Record with Clearing Agency under the Requirements of the Continuous Follow up of Shareholders related Information

The Company entered into a contract with a clearing agency approved by CMA, Kuwait Clearing Company, to maintain the shareholders' register that includes names and nationalities of the shareholders and the number of shares owned by each shareholder. The aforesaid register is updated with any change made thereto. The Company's shareholders have access to that register, which is always treated as strictly confidential.

CORPORATE GOVERNANCE REPORT

For the Year Ended 31 December 2022

3. Encouraging Shareholders to Take Part and Vote in the General Assembly Meeting

The Company makes available all the data and information relating to the agenda within sufficient time before the meeting date, and give access for all the shareholders to these data and information to enable them take part in the meetings. The Chairman or the external auditor replies to all questions and inquiries raised by the shareholders with respect to the Company's financial position, results, operating activities or future plans.

Furthermore, the Company ensures that all shareholders have the chance to vote, in person or by proxy, on the decisions passed in the general meeting and for electing BoD members. Attendance of the general assembly meeting is free of charge, and no preference is granted to any shareholder over the others.

Rule (9): Recognizing the Role of the Stakeholders

1. Systems and Policies that Ensure Protection and Recognition of Stakeholders' Rights

The Company has developed systems and policies that ensure protection of the stakeholders' rights, as the key factor of the Company's success in achieving its goals is the mutual efforts of all parties including customers, suppliers, employees, investors and the other parties that have business relations with the Company.

2. Encourage Stakeholders' to Participate and Follow up on Company's Business Activities

The Company's management encourage stakeholders to take part and participate in following Company's business activities, through a systematic policy that put a great emphasis on transparency, and dealing fairly with all stakeholders, and by establishing a culture among employees to create a link between staff performance and achieving Company's strategic goals, leading to inspire Company's employees to participate in a continued and effective manner in follow up on Company's business activities.

Rule (10): Enhancing Performance

I. Fulfilment of Trainings for BoD and Executive Management Requirements

Gatehouse Capital pays special attention to the continued trainings and qualification of each BoD and executive management member due to its belief that such continued trainings contribute to achievement of the Company's goals and ensure that each BoD and executive management member carries out his/her assigned task and responsibilities in a timely and efficient manner. Such programs and courses consider the training needs and requirements of BoD or executive management member.

2. Evaluation of BoD and Executive Management Performance

The Company developed Key Performance Indicators "KPIs" to measure and the BoD performance, as a whole, and contribution of each director. In addition, the Company developed KPIs for each board committee and every executive management member. Accordingly, performance appraisals are conducted against these KPIs and the preset objectives in order to measure any variations and address/resolve the same which ensures the good performance by BoD and executive management members and, hence, achieve the Company's targets.

3. BoD Efforts to Promote and Enhance Organizational Values

The Company strives to promote the organizational values by setting the mechanisms and procedures that help achieve its strategic goals and enhance performance. In addition, the Company continually develops the in-house integral reporting system to become more comprehensive and, accordingly, assist BoD and executive management members to take the sound decisions.

Rule (11): Promoting Social Responsibility

A Social Responsibility Policy has been developed to balance the Company's goals with the community's, and ensure the Company's contribution to community in line with the belief of the Company's management belief that such responsibility is a key factor of its success.

In addition, the Company engaged a professional designed from the local market to design and produce the gifts of the Holy Month of Ramadhan for its customers as part of its social responsibility and support of the national young talents.

INDEPENDENT AUDITOR'S REPORT To The Shareholders of Gatehouse Capital – Economic and Financial Consultancy K.S.C (closed)

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the consolidated financial statements of Gatehouse Capital – Economic and Financial Consultancy K.S.C (Closed) (the "Parent Company") and its subsidiaries (collectively referred to as "the Group"), which comprise the consolidated statement of financial position as at 31 December 2022 and the consolidated statement of income, consolidated statement of comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as at 31 December 2022, and its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with International Financial Reporting Standards (IFRSs).

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Consolidated Financial Statements* section of our report. We are independent of the Group in accordance with the International Ethics Standards Board for Accountants' *International Code of Ethics for Professional Accountants (including International Independence Standards)* (IESBA Code), and we have fulfilled our other ethical responsibilities in accordance with the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with IFRSs, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

To The Shareholders of Gatehouse Capital – Economic and Financial Consultancy K.S.C (closed) (Continued)

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or
 error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and
 appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is
 higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions,
 misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate
 in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal
 control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit
 evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt
 on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required
 to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such
 disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the
 date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going
 concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the
 disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a
 manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities
 within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction,
 supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Report on Other Legal and Regulatory Requirements

Furthermore, in our opinion proper books of account have been kept by the Parent Company and the consolidated financial statements, together with the contents of the report of the Parent Company's Board of Directors relating to these consolidated financial statements, are in accordance therewith. We further report that we obtained all the information and explanations that we required for the purpose of our audit and that the consolidated financial statements incorporate all information that is required by the Companies Law No. 1 of 2016 and its Executive Regulations and by the Parent Company's Memorandum of Incorporation and Articles of Association, that an inventory was duly carried out and that, to the best of our knowledge and belief, no violations of the Companies Law No. 1 of 2016, and its Executive Regulations, or of the Parent Company's Memorandum of Incorporation and Articles of Association have occurred during the year ended 31 December 2022 that might have had a material effect on the business of the Parent Company or on its consolidated financial position except for the matter discussed in note 6 regarding investment properties. The Parent Company's objects do not include this activity.

We further report that, during the course of our audit, we have not become aware of any material violations of the provisions of Law No. 7 of 2010, concerning the Capital Markets Authority and its related regulations during the year ended 31 December 2022, that might have had a material effect on the business of the Parent Company or on its consolidated financial position.

31 December 2022

I. Corporate information and activities

Gatehouse Capital – Economic and Financial Consultancy K.S.C (Closed) (the 'Parent Company') is a closed shareholding company registered in Kuwait on 13 July 2008. The main objectives of the Parent Company are as follows:

- · Placement agent.
- Investment advisor.
- provide financial, management and economic consultations;
- conduct financial, management and economic studies and researches;
- organize specialized conferences, forums and workshops;
- effect transactions in securities (offer or sell) for the account of the issuer or any of its affiliates, or buying securities from the issuer or its affiliates for the purpose of re-marketing after appropriate regulatory approval;
- · own movables and immovable properties required for carrying out its business within the limit permitted by law;
- utilize financial surpluses available to the Parent Company for investment in financial portfolios managed by competent companies and authorities.

The Parent Company is regulated by the Capital Markets Authority (CMA) as a licensed person.

The Parent Company's registered address is 15 Floor, Al Dhow Tower, Sharq, Khalid Bin Al Waleed Street,

P. O. Box 29120, Safat 13150, Kuwait.

The consolidated financial statements of the Parent Company and subsidiaries (collectively the "Group"), for the year ended 31 December 2022 were authorized for issue by the Parent Company's board of directors 20 March 2023. The annual general assembly of the shareholders of the Parent Company has the power to amend these consolidated financial statements after issuance.

The Parent Company was a subsidiary of Gatehouse Financial Group Limited, United Kingdom (GFGL) and during the year, GFGL disposed of its entire investments in the Parent Company to The Securities House K.S.C.P, Kuwait (the "Ultimate Parent Company").

2. Basis of preparation and significant accounting policies

2.1 Basis of preparation

These consolidated financial statements have been prepared in accordance with International Financial Reporting Standards (IFRS) issued by the International Accounting Standards Board (IASB) and interpretations issued by the International Financial Reporting Interpretations Committee (IFRIC). These consolidated financial statements have been prepared under the historical cost basis except for the measurement at fair value of investment properties, financial assets classified as at fair value through other comprehensive and financial assets classified as at fair value through profit or loss.

The consolidated financial statements are presented in Kuwaiti Dinars (KD) which is the functional currency of the Parent Company.

The preparation of the consolidated financial statements in conformity with IFRS requires management to make estimates and assumptions that may affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. It also requires management to exercise its judgment in the process of applying the Group's accounting policies. The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the consolidated financial statements are disclosed in Note 2.18.

Going concern

The directors have, at the time of approving the consolidated financial statements, a reasonable expectation that the Group have adequate resources to continue in operational existence for the foreseeable future. Thus they continue to adopt the going concern basis of accounting in preparing the consolidated financial statements.

31 December 2022

2.2 New and amended IFRS that are effective for the current year

Effective for the current year

The accounting policies used in the preparation of these consolidated financial statements are consistent with those used in the previous year except for the following new and amended IASB Standards during the year:

Standard, interpretation, Description amendments

Effective date

Amendment to IFRS 16, 'Leases' - COVID-19 related rent concessions Extension of the practical expedient

As a result of the coronavirus (COVID-19) pandemic, rent concessions have been granted to lessees. In May 2020, the IASB published an amendment to IFRS 16 that provided an optional practical expedient for lessees from assessing whether a rent concession related to COVID-19 is a lease modification. On 31 March 2021, the IASB published an additional amendment to extend the date of the practical expedient from 30 June 2021 to 30 June 2022. Lessees can select to account for such rent concessions in the same way as they would if they were not lease modifications. In many cases, this will result in accounting for the concession as variable lease payments in the period(s) in which the event or condition that triggers the reduced payment occurs.

Annual periods beginning on or after I April

A number of narrow-scope amendments to IFRS 3, IAS 16, IAS 37 and some annual improvements on IFRS 1, IFRS 9, IAS 41 and IFRS 16

Amendments to IFRS 3, 'Business combinations' update IFRS 3 so that it refers to the 2018 Conceptual Framework instead of the 1989 Framework. They also add to IFRS 3 a requirement that, for obligations within the scope of IAS 37 Provisions, Contingent Liabilities and Contingent Assets, an acquirer applies IAS 37 to determine whether at the acquisition date a present obligation exists as a result of past events. For a levy that would be within the scope of IFRIC 21 Levies, the acquirer applies IFRIC 21 to determine whether the obligating event that gives rise to a liability to pay the levy has occurred by the acquisition date

Amendments to IAS 16, 'Property, plant and equipment' prohibit a company from deducting from the cost of property, plant and equipment amounts received from selling items produced while the company is preparing the asset for its intended use. Instead, a company will recognise such sales proceeds and related cost in statement of income.

Amendments to IAS 37, 'Provisions, contingent liabilities and contingent assets'- Cost of Fulfilling a Contract

The amendments specify that the cost of fulfilling a contract comprises the costs that relate directly to the contract. Costs that relate directly to a contract consist of both the incremental costs of fulfilling that contract (examples would be direct labour or materials) and an allocation of other costs that relate directly to fulfilling contracts (an example would be the allocation of the depreciation charge for an item of property, plant and equipment used in fulfilling the contract).

Annual improvements make minor amendments to IFRS 1, 'Firsttime Adoption of IFRS', IFRS 9, 'Financial instruments', IAS 41, 'Agriculture' and the Illustrative Examples accompanying IFRS 16, 'Leases'.

Annual periods beginning on or after I January 2022

31 December 2022

The application of these amendments did not have any significant impact on the Group's consolidated financial statements...

Standards issued but not yet effective

At the date of authorization of these consolidated financial statements, the Group has not applied the following new and revised IFRS Standards that have been issued but are not yet effective:

Standard, interpretation, Description amendments

Amendments to IAS I, Presentation of financial statements', on classification of liabilities The amendments clarify that the classification of liabilities as current or non-current is based on rights that are in existence at the end of the reporting period, specify that classification is unaffected by expectations about whether an entity will exercise its right to defer settlement of a liability, explain that rights are in existence if covenants are complied with at the end of the reporting period, and introduce a definition of 'settlement' to make clear that settlement refers to the transfer to the counterparty of cash, equity instruments, other assets or services.

The IASB is currently considering further amendments to the requirements in IAS I on classification of liabilities as current or non-current, including deferring the application of the January 2020 amendments.

IAS I Presentation of Financial Statements and IFRS Practice Statement 2 Making

Materiality Judgements-Disclosure of Accounting Policies The amendments change the requirements in IAS I with regard to disclosure of accounting policies. The amendments replace all instances of the term 'significant accounting policies' with 'material accounting policy information'. Accounting policy information is material if, when considered together with other information included in an entity's financial statements, it can reasonably be expected to influence decisions that the primary users of general-purpose financial statements make on the basis of those financial statements.

The IASB has also developed guidance and examples to explain and demonstrate the application of the 'four-step materiality process' described in IFRS Practice Statement 2.

Narrow scope amendments to IAS 1, IFRS Practice statement 2 and IAS 8 The amendments aim to improve accounting policy disclosures and to help users of the financial statements to distinguish between changes in accounting estimates and changes in accounting policies.

Amendment to IAS 12deferred tax related to assets and liabilities arising from a single transaction The amendments introduce a further exception from the initial recognition exemption. Under the amendments, an entity does not apply the initial recognition exemption for transactions that give rise to equal taxable and deductible temporary differences.

Effective date

Deferred until accounting periods starting not earlier than I January 2024

Annual periods beginning on or after 1 January 2023

Annual periods beginning on or after 1 January 2023

Annual periods beginning on or after 1 January 2023.

31 December 2022

Standard, interpretation, Description amendments

Effective date

IFRS 17, 'Insurance contracts', as amended in June 2020

This standard replaces IFRS 4, which currently permits a wide variety of practices in accounting for insurance contracts. IFRS 17 will fundamentally change the accounting by all entities that issue insurance contracts and investment contracts with discretionary participation features.

Annual periods beginning on or after 1 January 2023.

A narrow-scope amendment to the transition requirements in IFRS 17 Insurance Contracts The amendment relates to insurers' transition to the new Standard only-it does not affect any other requirements in IFRS 17.

Annual periods beginning on or after I January 2023.

IFRS 17 and IFRS 9 Financial Instruments have different transition requirements. For some insurers, these differences can cause temporary accounting mismatches between financial assets and insurance contract liabilities in the comparative information they present in their financial statements when applying IFRS 17 and IFRS 9 for the first time.

The amendment will help insurers to avoid these temporary accounting mismatches and, therefore, will improve the usefulness of comparative information for investors. It does this by providing insurers with an option for the presentation of comparative information about financial assets.

Management anticipates that these new standards, interpretations and amendments will be adopted in the consolidated financial statements in the period of initial application and adoption of these new standards, interpretations and amendments will not have any material impact on the consolidated financial statements of the Group in the period of initial application.

2.3 Business combination

A business combination is the bringing together of separate entities or businesses into one reporting entity as a result of one entity, the acquirer, obtaining control of one or more other businesses. The acquisition method of accounting is used to account for business combinations. The consideration transferred for the acquisition is measured as the fair values of the assets given, equity interests issued and liabilities incurred or assumed at the date of the exchange. The consideration transferred includes the fair value of any asset or liability resulting from a contingent consideration arrangement. The acquisition related costs are expensed when incurred. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination (net assets acquired in a business combination) are measured initially at their fair values at the acquisition date. Non-controlling interest in the subsidiary acquired is recognized at the non-controlling interest's proportionate share of the acquiree's net assets.

When a business combination is achieved in stages, the previously held equity interest in the acquiree is re-measured at its acquisition-date fair value and the resulting gain or loss is recognized in the consolidated statement of income. The fair value of the equity of the acquiree at the acquisition date is determined using valuation techniques and considering the outcome of recent transactions for similar assets in the same industry in the same geographical region.

The Group separately recognizes contingent liabilities assumed in a business combination if it is a present obligation that arises from past events and its fair value can be measured reliably.

An indemnification received from the seller in a business combination for the outcome of a contingency or uncertainty related to all or part of a specific asset or liability that is recognized at the acquisition date at its acquisition-date fair value is recognized as an indemnification asset at the acquisition date at its acquisition-date fair value.

The Group uses provisional values for the initial accounting of a business combination and recognizes any adjustment to these provisional values within the measurement period which is twelve months from the acquisition date.

31 December 2022

2.4 Consolidation

The Group consolidates the financial statements of the Parent Company and subsidiaries (i.e. investees that it controls) and investees controlled by its subsidiaries.

The Group controls an investee if and only if the Group has:

- Power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee);
- Exposure, or rights, to variable returns from its involvement with the investee, and
- The ability to use its power over the investee to affect its returns.

When the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- The contractual arrangement with the other vote holders of the investee;
- Rights arising from other contractual arrangements;
- · Voting rights and potential voting rights;

The financial statements of subsidiaries are included in the consolidated financial statements on a line-by-line basis, from the date on which control is transferred to the Group until the date that control ceases.

Non-controlling interest in an acquiree is stated at the non-controlling interest's proportionate share in the recognized amounts of the acquiree's identifiable net assets at the acquisition date and the non-controlling interest's share of changes in the equity since the date of the combination. Total comprehensive income is attributed to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. Changes in the Group's ownership interest in a subsidiary that do not result in loss of control are accounted for as equity transactions. The carrying amounts of the controlling and non-controlling interests are adjusted to reflect the changes in their relative interest in the subsidiary and any difference between the amount by which the non-controlling interests is adjusted and the fair value of the consideration paid or received is recognized directly in equity and attributed to the Parent Company's shareholders. Non-controlling interest is presented separately in the consolidated statements of financial position and income. The non-controlling interests are classified as a financial liability to the extent there is an obligation to deliver cash or another financial asset to settle the non-controlling interest.

Consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances based on latest audited financial statements of subsidiaries. Intra group balances, transactions, income, expenses and dividends are eliminated in full. Profits and losses resulting from intra group transactions that are recognized in assets are eliminated in full. Intra group losses that indicate an impairment is recognized in the consolidated financial statements.

When the Parent Company loses control of a subsidiary, it derecognizes the assets (including any goodwill) and liabilities of the subsidiary at their carrying amounts at the date when control is lost as well as related non-controlling interests. Any investment retained is recognized at fair value at the date when control is lost. Any resulting difference along with amounts previously directly recognized in equity is transferred to the consolidated statement of income.

2.5 Financial instruments

Recognition and de-recognition of financial assets and financial liabilities

A financial asset or a financial liability is recognized when the Group becomes a party to the contractual provisions of the instrument. All financial assets or financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue are added except for those financial instruments classified as "at fair value through profit or loss".

A financial asset (in whole or in part) is de-recognised when the contractual rights to receive cash flows from the financial asset has expired or the Group has transferred substantially all risks and rewards of ownership and has not retained control. If the Group has retained control, it continues to recognize the financial asset to the extent of its continuing involvement in the financial asset.

31 December 2022

A financial liability is derecognized when the obligation under the liability is discharged, cancelled or expires. Where an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and recognition of a new liability. If the modification is not substantial, the difference between: (1) the carrying amount of the liability before the modification; and (2) the present value of the cash flows after modification is recognised in consolidated statement of income as the modification gain or loss within other gains and losses.

All regular way purchase and sale of financial assets are recognized using settlement date accounting. Changes in fair value between the trade date and settlement date are recognized in the consolidated statement of income or in the consolidated statement of comprehensive income in accordance with the policy applicable to the related instrument. Regular way purchases or sales are purchase or sale of financial assets that require delivery of assets within the time frame generally established by regulations or conventions in the market place..

Classification of financial assets and financial liabilities

Classification of financial assets are based on a combination of the entity's business model for managing the assets and the instruments' contractual cash flow characteristics.

Business model assessment

The Group determines its business model at the level that best reflects how it manages groups of financial assets to achieve its business objective. That is, whether the Group's objective is solely to collect the contractual cash flows from the assets or is to collect both the contractual cash flows and cash flows arising from the sale of assets. If neither of these is applicable (e.g. financial assets are held for trading purposes), then the financial assets are classified as part of 'Sell' business model and measured at Fair Value through Profit or Loss. The Group's business model is based on observable factors such as:

- How the performance of the business model and the financial assets held within that business model are evaluated and reported to the entity's key management personnel;
- The risks that affect the performance of the business model (and the financial assets held within that business model) and, in particular, the way those risks are managed;
- How managers of the business are compensated (for example, whether the compensation is based on the fair value of the assets managed or on the contractual cash flows collected).

The expected frequency, value and timing of sales are also important aspects of the Group's assessment.

Assessment of whether contractual cash flows are Solely Payments of Principal and Profit (SPPP test)

Where the business model is to hold assets to collect contractual cash flows or to collect contractual cash flows and sell, the Group assesses whether the financial instruments' contractual cash flows represent Solely Payments of Principal and Profit (the 'SPPP test').

'Principal' for the purpose of this test is defined as the fair value of the financial asset at initial recognition and may change over the life of the financial asset (for example, if there are repayments of principal or amortization of the premium/discount).

The most significant elements of interest within a basic lending arrangement are typically the consideration for the time value of money, credit risk, other basic lending risks and a profit margin. To make the SPPP assessment, the Group applies judgement and considers relevant factors such as the currency in which the financial asset is denominated, and the period for which the interest rate is set.

The Group classifies its financial assets upon initial recognition into the following categories:

- Financial assets carried at amortised cost (AC)
- Investment securities at FVTPL
- Investment securities at FVOCI

31 December 2022

Financial assets carried at amortised cost

A financial asset is measured at amortised cost if it meets both of the following conditions:

- The asset is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- The contractual terms of the financial asset give rise on specified dates to cash flows that are SPPP on the principal amount outstanding.

Cash and bank balances and accounts receivable in the nature of financial assets are classified as financial assets carried at amortised cost.

Investment securities at FVTPL

The Group classifies financial assets as held for trading when they have been purchased or issued primarily for short-term profit making through trading activities or form part of a portfolio of financial instruments that are managed together, for which there is evidence of a recent pattern of short-term profit taking. In addition, on initial recognition, the Group may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost or at FVOCI as at FVTPL, if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise. Included in this classification are certain, equities securities that have been acquired principally for the purpose of selling or repurchasing in the near term.

Investment securities at FVOCI

Upon initial recognition, the Group may elect to classify irrevocably some of its equity investments as equity instruments at FVOCI when they meet the definition of Equity under IAS 32 Financial Instruments: Presentation and are not held for trading. Such classification is determined on an instrument-by-instrument basis. Equity instruments at FVOCI are subsequently measured at fair value. Gains and losses on these equity instruments are never recycled to consolidated statement of income. Dividends are recognised in consolidated statement of income, when the right of the payment has been established, except when the Group benefits from such proceeds as a recovery of part of the cost of the instrument, in which case, such gains are recorded in consolidated statement of income and other comprehensive income. Equity instruments at FVOCI are not subject to an impairment assessment. The cumulative gains or losses will not be reclassified to consolidated statement of income, instead, they will be transferred to retained earnings in the consolidated statement of changes in equity.

Impairment of financial assets

The Group recognizes expected credit losses (ECL) on financial assets that are measured at amortized cost.

The expected credit loss of a financial instrument is measured in a way that reflects an unbiased and probability-weighted amount determined by evaluating range of possible outcomes; the time value of money; and past events, current conditions and forecast of future economic conditions. The ECL model applies to all financial instruments except investments in equity instruments. The methodologies and assumptions including any forecasts of future economic conditions are reviewed regularly.

General approach

To measuring ECL under the general approach the assets migrate through a three-stages based on the change in credit quality since initial recognition.

The Group recognizes ECL for cash and bank balances and accounts receivable using the general approach.

The Group applies three-stage approach to measuring ECL. Assets migrate through the three stages based on the change in credit quality since initial recognition. Financial assets with significant increase in credit risk since initial recognition, but not credit impaired, are transitioned to stage 2 from stage I and ECL is recognized based on the probability of default (PD) of the counter party occurring over the life of the asset. All other financial assets are considered to be in stage I unless it is credit impaired and an ECL is recognized based on the PD of the customer within next I2 months. Financial assets are assessed as credit impaired when there is a detrimental impact on the estimated future cash flows of the financial asset.

31 December 2022

Simplified approach

The Group determines the expected credit losses on these items based on historical credit loss experience based on the past due status of the debtors, adjusted as appropriate to reflect current conditions and estimates of future economic conditions.

FCI

ECL is the discounted product of the Probability of Default (PD), Exposure at Default (EAD), and Loss Given Default (LGD). The PD represents the likelihood of a borrower defaulting on its financial obligation, either over the next 12 months (12M PD), or over the remaining lifetime (Lifetime PD) of the obligation. EAD represents the expected exposure in the event of a default. The Group derives the EAD from the current exposure to the financial instruments and potential changes to the current amounts allowed under the contract including amortisation. The EAD of a financial asset is its gross carrying amount. The LGD represents expected loss conditional on default, its expected value when realised and the time value of money.

Event of default

The Group considers the following as constituting an event of default for internal credit risk management purposes as historical experience indicates that financial assets that meet either of the following criteria are generally not recoverable:

- when there is a breach of financial covenants by the debtor; or
- Information developed internally or obtained from external sources indicates that the debtor is unlikely to pay its creditors, including the Group, in full (without taking into account any collateral held by the Group).

Irrespective of the above analysis, the Group considers that default has occurred when a financial asset is more than 90 days past due unless the Group has reasonable and supportable information to demonstrate that a more lagging default criterion is more appropriate.

The Group incorporates forward-looking information based on expected changes in macro- economic factors in assessment of whether the credit risk of an instrument has increased significantly since its initial recognition and its measurement of ECL.

Financial liabilities and equity

Classification as debt or equity

Debt and equity instruments are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Group are recognised at the proceeds received, net of direct issue costs.

Financial liabilities

All Financial liabilities are classified as measured at amortized cost. Financial liabilities at amortized cost are initially measured at fair value and subsequently measured at amortized cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognized in the consolidated statement of income.

2.6 Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability.
- The principal or the most advantageous market must be accessible to by the Group.

31 December 2022

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the consolidated financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level I inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs other than quoted prices included within Level 1, that are observable for the asset or liability either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

For financial instruments quoted in an active market, fair value is determined by reference to quoted market prices. Bid prices are used for assets and offer prices are used for liabilities. The fair value of investments in mutual funds, unit trusts or similar investment vehicles are based on the last published net assets value.

For unquoted financial instruments, fair value is determined by reference to the market value of a similar investment, discounted cash flows, other appropriate valuation models or brokers' quotes.

For financial instruments carried at amortised cost, the fair value is estimated by discounting future cash flows at the current market rate of return for similar financial instruments.

For investments in equity instruments, where a reasonable estimate of fair value cannot be determined, the investment is carried at cost less impairment.

The fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

For assets and liabilities that are recognised in the consolidated financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

2.7 Furniture and equipment

Furniture and equipment are stated at cost less accumulated depreciation and accumulated impairment losses, if any. Depreciation is calculated on a straight-line basis over the estimated useful lives of the asset as follows.

Furniture and fixtures 3 years

Office equipment 3 years

Decorations 5 years

Expenditure incurred to replace a component of an item of furniture and equipment that is accounted for separately is capitalized and the carrying amount of the component that is replaced is written off. Other subsequent expenditure is capitalized only when it increases future economic benefits of the related item of furniture and fixtures. All other expenditure is recognized in the consolidated statement of income as the expense is incurred. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows. The residual value, useful lives and methods of depreciation are reviewed, and adjusted if appropriate, at each financial year end.

31 December 2022

2.8 Investment properties

Investment properties are properties held either to earn rental income or for capital appreciation or for both, but not for sale in the ordinary course of business, use in the production or supply of goods or services or for administrative purposes.

Investment properties are measured at cost on initial recognition and subsequently at fair value with any change therein recognised in consolidated statement of income. Cost includes expenditure that is directly attributable to the acquisition of the investment property.

Fair values of investment properties are determined by appraisers having an appropriate recognised professional qualification and recent experience in the location and category of the property being valued.

Any gain or loss on disposal of an investment property (calculated as the difference between the net proceeds from disposal and the carrying amount of the item) is recognised in consolidated statement of income.

When the use of a property changes such that it is reclassified as property and equipment, its fair value at the date of reclassification becomes its cost for subsequent accounting.

2.9 Impairment of tangible and intangible assets excluding goodwill

At each reporting date, the Group reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated to determine the extent of the impairment loss (if any). Where the asset does not generate cash flows that are independent from other assets, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs. When a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified. Intangible assets with an indefinite useful life are tested for impairment at least annually and whenever there is an indication that the asset may be impaired.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted. If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised immediately in consolidated statement of income, unless the relevant asset is carried at a revalued amount, in which case the impairment loss is treated as a revaluation decrease.

Where an impairment loss subsequently reverses, the carrying amount of the asset (or cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognised immediately in consolidated statement of income, unless the relevant asset is carried at a revalued amount, in which case the reversal of the impairment loss is treated as a revaluation increase..

2.10 Investment in an associate

An associate is an entity over which the Group has significant influence and that is neither a subsidiary nor an interest in a joint venture. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control over those policies.

The results and assets and liabilities of associates are incorporated in these consolidated financial statements using the equity method of accounting, except when the investment is classified as held for sale, in which case it is accounted for in accordance with IFRS 5 Non-current Assets Held for Sale and Discontinued Operations. Under the equity method, an investment in an associate is initially recognised in the consolidated statement of financial position at cost and adjusted thereafter to recognise the Group's share of the profit or loss and other comprehensive income of the associate. When the Group's share of losses of an associate exceeds the Group's interest in that associate (which includes any long-term interests that, in substance, form part of the Group's net investment in the associate), the Group discontinues recognising its share of further losses. Additional losses are recognised only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the associate.

31 December 2022

Any excess of the cost of acquisition over the Group's share of the net fair value of the identifiable assets, liabilities and contingent liabilities of an associate recognised at the date of acquisition is recognised as goodwill, which is included within the carrying amount of the investment. Any excess of the Group's share of the net fair value of the identifiable assets, liabilities and contingent liabilities over the cost of acquisition, after reassessment, is recognised immediately in the consolidated statement of income.

The requirements of IAS 36 are applied to determine whether it is necessary to recognise any impairment loss with respect to the Groups investment in an associate. When necessary, the entire carrying amount of the investment (including goodwill) is tested for impairment in accordance with IAS 36 as a single asset by comparing its recoverable amount (higher of value in use and fair value less costs of disposal) with its carrying amount.

Any impairment loss recognised is not allocated to any asset, including goodwill that forms part of the carrying amount of the investment. Any reversal of that impairment loss is recognised in accordance with IAS 36 to the extent that the recoverable amount of the investment subsequently increases.

The Group discontinues the use of the equity method from the date when the investment ceases to be an associate. When the Group retains an interest in the former associate and the retained interest is a financial asset, the Group measures the retained interest at fair value at that date and the fair value is regarded as its fair value on initial recognition in accordance with IFRS 9. The difference between the carrying amount of the associate at the date the equity method was discontinued, and the fair value of any retained interest and any proceeds from disposing of a part interest in the associate is included in the determination of the gain or loss on disposal of the associate. In addition, the Group accounts for all amounts previously recognised in other comprehensive income in relation to that associate on the same basis as would be required if that associate had directly disposed of the related assets or liabilities. Therefore, if a gain or loss previously recognised in other comprehensive income by that associate would be reclassified to consolidated statement of income on the disposal of the related assets or liabilities, the Group reclassifies the gain or loss from equity to consolidated statement of income (as a reclassification adjustment) when the associate is disposed of.

When the Group reduces its ownership interest in an associate but the Group continues to use the equity method, the Group reclassifies to consolidated statement of income the proportion of the gain or loss that had previously been recognised in other comprehensive income relating to that reduction in ownership interest if that gain or loss would be reclassified to consolidated statement of income on the disposal of the related assets or liabilities.

When a group entity transacts with an associate of the Group, profits and losses resulting from the transactions with the associate are recognised in the Group's consolidated financial statements only to the extent of interests in the associate that are not related to the Group.

2.11 Cash and cash equivalents

For purposes of the consolidated statement of cash flows, cash and cash equivalents includes bank balances and cash that are readily convertible to known amounts of cash with original maturities up to three months from the date of acquisition and that are subject to an insignificant risk of change in value.

2.12 Post-employment benefits

The Group is liable under Kuwait Labour Law to make payments under defined benefit plans to employees at cessation of employment. The defined benefit plan is unfunded and is based on the liability that would arise on involuntary termination of all employees on the reporting date. This basis is considered to be a reliable approximation of the present value of this liability.

2.13 Revenue recognition

Revenue is recognised to the extent it is probable that the economic benefits will flow to the Group and the revenue can be reliably measured regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment and excluding taxes or duty. The following specific recognition criteria must also be met before revenue is recognised:

Recurring advisory and placement fees are recognised over the period of time as the Group satisfies the
performance obligation by transferring the promised services to the customer.

31 December 2022

- Consultancy and advisory fees is recognised point in time as the Group satisfies the performance obligation by transferring the promised services to the customer.
- Gain or losses on sale of financial assets are recognised when the risks and rewards are transferred to the buyer.
- Dividend income is recognised when the right to receive payment is established.

2.14 Foreign currencies

Foreign currencies transactions are recorded at rates of exchange ruling at the date of the transactions. Monetary assets and liabilities in foreign currencies outstanding at the year-end are translated into Kuwaiti Dinars at rates of exchange ruling at the reporting date. Any resultant gains or losses are taken to the consolidated statement of income.

Translation differences on non-monetary items, such as equities classified as FVOCI are included in the investment fair valuation reserve in equity.

The income and cash flow statements of foreign operations are translated into the Group's reporting currency at average exchange rates for the year and their consolidated statement of financial position are translated at exchange rates ruling at the year-end. Exchange differences arising from the translation of the net investment in foreign operations (including goodwill) are taken to the consolidated statement of comprehensive income. When a foreign operation is sold, any resultant exchange differences are recognized in the consolidated statement of income as part of the gain or loss on sale.

2.15 Taxation

Contribution to Kuwait Foundation for the Advancement of Sciences (KFAS)

The Group calculates the contribution to KFAS at 1% of the profit in accordance with the KFAS Foundation's Board of Directors resolution, which states that the transfer to statutory reserve should be excluded from profit for the year when determining the contribution.

Zakat

Contribution to Zakat is calculated at 1% of the profit of the Group in accordance with the Ministry of Finance resolution No. 58/2007 effective from 10 December 2007.

Taxation on overseas subsidiaries

Taxation on overseas subsidiaries is calculated on the basis of the tax rates applicable and prescribed according to the prevailing laws, regulations and instructions of the countries where these subsidiaries operate. Income tax payable on taxable profit ("current tax") is recognized as an expense in the year in which the profits arise in accordance with the fiscal regulations of the respective countries in which the Group operates.

2.16 Contingencies

Contingent assets are not recognized as an asset until realisation becomes virtually certain. Contingent liabilities, other than those arising on acquisition of subsidiaries, are not recognized as a liability unless as a result of past events it is probable that an outflow of economic resources will be required to settle a present, legal or constructive obligation; and the amount can be reliably estimated. Contingent liabilities arising in a business combination are recognized if their fair value can be measured reliably.

2.17 Leases

The Group as a lessee

The Group assesses whether contract is or contains a lease, at inception of the contract. The Group recognizes a right of use asset and a corresponding lease liability on the date on which the lessor makes the asset available for use by the Group (the commencement date).

On that date, the Group measures the right of use at cost, which comprises of:

- the amount of the initial measurement of the lease liability.
- · any lease payments made at or before the commencement date, less any lease incentives received
- · any initial direct costs, and

31 December 2022

• an estimate of costs to be incurred to restoring the underlying asset to the condition required by the terms and conditions of the lease as a consequence of having used the underlying asset during a particular period; this is recognised as part of the cost of the right of use asset when the Group incurs the obligation for those costs, which may be at the commencement date or as a consequence of having used the asset during a particular period.

At the commencement date, the Group measures the lease liability at the present value of the lease payments that are not paid at that date. On that date, the lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Group uses its incremental borrowing rate.

Lease payments included in measurement of the lease liability comprise the following payments for the right to use the underlying asset during the lease term that are not paid at the commencement date:

- · fixed payments (including in-substance fixed payments), less any lease incentives receivable
- variable lease payment that are based on an index or a rate
- amounts expected to be payable by the lessee under residual value guarantees
- · the exercise price of a purchase option if the lessee is reasonably certain to exercise that option, and
- payments of penalties for terminating the lease, if the lease term reflects the lessee exercising that option.

Payments associated with leases of short-term leases and low-value assets are recognized on a straight-line basis as an expense in the consolidated statement of income.

Whenever the Group incurs an obligation for costs to dismantle and remove a leased asset, restore the site on which it is located or restore the underlying asset to the condition required by the terms and conditions of the lease, a provision is recognised and measured under IAS 37. To the extent that the costs relate to a right-of-use asset, the costs are included in the related right-of-use asset, unless those costs are incurred to produce inventories.

Subsequent Measurement

After the commencement date, the Group measures the right-of-use asset at cost less accumulated depreciation and impairment losses. Depreciation is calculated on a straight line basis over the shorter of the asset's useful life and the lease term. The Group determines whether a right of use asset is impaired and recognizes any impairment loss identified in the consolidated statement of income. The depreciation starts at the commencement date of the lease.

After the commencement date, the Group measures lease liability by increasing the carrying amount to reflect interest on the lease liability and reducing the carrying amount to reflect the lease payment made.

The Group remeasures the lease liability (and makes a corresponding adjustment to the related right-of-use asset) whenever:

- The lease term has changed or there is a significant event or change in circumstances resulting in a change in the assessment of exercise of a purchase option, in which case the lease liability is remeasured by discounting the revised lease payments using a revised discount rate.
- The lease payments change due to changes in an index or rate or a change in expected payment under a guaranteed residual value, in which cases the lease liability is remeasured by discounting the revised lease payments using an unchanged discount rate (unless the lease payments change is due to a change in a floating interest rate, in which case a revised discount rate is used).
- A lease contract is modified and the lease modification is not accounted for as a separate lease, in which case the lease liability is remeasured based on the lease term of the modified lease by discounting the revised lease payments using a revised discount rate at the effective date of the modification.

Each lease payment is allocated between the liability and the finance cost. The finance cost is charged to consolidated statement of income over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period. The constant periodic rate of interest is the discount rate used at the initial measurement of lease liability.

For contracts that contains a lease component and one or more additional lease or non-lease components, the Group allocates the consideration in the contract to each lease component on the basis of the relative stand-alone price of the lease component and the aggregate stand-alone price of the non-lease components.

31 December 2022

2.18 Significant accounting judgments, estimates and assumptions

Judgments

In the process of applying the Group's accounting policies, management has made the following judgments, apart from those involving estimations, which have the most significant effect in the amounts recognized in the consolidated financial statements.

Significant increase in credit risk

As explained in note 2.5, ECL is measured as an allowance equal to 12-month ECL for stage 1 assets, or life time ECL for stage 2 or stage 3 assets. An asset moves to stage 2 when its credit risk has increased significantly since initial recognition. In assessing whether the credit risk of an asset has significantly increased, the Group takes into account qualitative and quantitative reasonable and supportable forward looking information.

Structured entities

The Parent Company uses judgement in determining which entities are structured entities. If the voting or similar rights are not the dominant factor in deciding who controls the entity and such voting rights relate to the administrative tasks only and the relevant activities are directed by means of contractual arrangements, the Group identifies such entities as structured entities. After determining whether an entity is a structured entity, the Parent Company determines whether it needs to consolidate this entity based on the consolidation principles of IFRS 10. The management of the Parent Company has determined that it does not have any interest in consolidated structured entities as at the reporting date.

The Parent Company considers itself the sponsor of certain limited liability companies that are Special Purpose Vehicles (SPVs) for the Parent Company's asset management activities. These SPVs are used to raise funds from the Group's clients on the basis of product offering memorandum with eventual objectives of investments in specified asset classes as defined in the offering documents of the SPVs. These SPVs are managed on a fiduciary basis by the Parent Company's asset management teams and as the Parent Company does not control these SPVs as at the reporting date in accordance with the definition of control in IFRS 10, these SPVs are not consolidated into the Group's consolidated financial statements. The Parent Company has not transferred any assets to these SPVs during the year.

The Parent Company's investment in these SPV's are included in investment securities at fair value through other comprehensive income amounting to KD 1,860,687 (2021: KD 3,619,790).

Classification of investments

The Group determines the classification of financial instrument based on the assessment of the business model within which the assets are held and assessment of whether the contractual terms of the financial instrument are solely payments of principal and interest on the principal amount outstanding. Refer note 2.5 classification of financial assets for more information.

Impairment of investment in associates

After application of the equity method, the Group determines whether it is necessary to recognise any impairment loss on the Group's investment in its associates at each reporting date based on existence of any objective evidence that the investment in the associate is impaired.

Classification of real estate property

Management decides on acquisition of a real estate whether it should be classified as trading, property held for development or investment property.

The Group classifies property as trading property if it is acquired principally for sale in the ordinary course of business. The Group classifies property as investment property under development if it is acquired with the intention of development. The Group classifies property as investment property if it is acquired to generate rental income or for capital appreciation, or for undetermined future use.

31 December 2022

Estimation of uncertainty

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below:

Valuation of unquoted equity investments

Valuation of unquoted equity investments is normally based on one of the following:

- Recent arm's length market transactions;
- Current fair value of another instrument that is substantially the same; or
- The expected cash flows discounted at current rates applicable for items with similar terms and risk characteristics;

The determination of the cash flows and discount factors for unquoted equity investments requires significant estimation.

Discounting of lease payments

The lease payments are discounted using the Group's incremental borrowing rate ("IBR"). Management has applied judgments and estimates to determine the IBR at the commencement of lease.

Impairment of financial assets

The Group estimates expected credit loss for all financial assets carried at amortised cost or fair value through consolidated statement of income except for equity instruments. The determination of expected credit loss involves significant use of external and internal data and assumptions. Refer note 2.5 impairment of financial assets for more information.

3. Subsidiaries

Name of Company	Country of incorporation	Percent owner	_	Principal activities	
		2022	2021		
Subsidiaries					
Blue Pillar Advisory Ltd.	Cayman Islands	100%	100%	Investment advisory services	
Dhow Holdings Corporation ("DHC")*	Cayman Islands	100%	100%	Investment holdin	
Held through DHC Global Securities House USA, Inc ("GSH USA")	USA	100%	100%	Investment holdin	
* DHC was liquidated on 5 January 2023.					

4. Right of use assets

Kuwaiti	Dinars
2022	2021
417,109	54,816
-	477,286
(92,740)	(114,993)
324,369	417,109

The Group leases office space for its operations. Lease contracts are typically made for fixed periods ranging from I to 3 years.

31 December 2022

5. **Investment income**

	Kuwaiti Dinars	
	2022	2021
Dividend income	175,036	387,270
Realized loss on sale of investment properties (note 6)	(14,422)	-
Realized loss on sale investment securities at fair value through profit or loss (note 9)	(194,603)	(15,026)
Unrealized loss on investment properties (note 6)	(146,684)	(15,814)
	(180,673)	356,430

6. **Investment properties**

	Kuwaiti D	inars
	2022	2021
As at I January	334,363	350,177
Change in fair value (note 5)	(146,684)	(15,814)
Disposal of investment property	(137,679)	-
	50,000	334,363

Investment properties are located at the Sultanate of Oman and are stated at fair value. The fair value of the property is based on external valuation carried out by accredited independent valuator using market comparable approach. Based on certain expected developments with respect to real estate market in Sultanate of Oman, the management has further reduced the fair value by KD 146,684.

During the current year, the Company sold a portion of its investment properties amounting to KD 137,679 at a loss of KD 14,422. The cash proceeds from sale amounts to KD 123,257 (OMR 153,185).

The Parent Company's objects do not include investing in investment properties.

Under market comparison approach, fair value is estimated based on comparable transactions. The market comparison approach is based upon the principal of substitution under which a potential buyer will not pay more for the property than it will cost to buy a comparable substitute property. The unit of comparison applied by the Group is the price per square meter ("sqm").

Description of key inputs to valuation of investment properties:

Valuation technique	Significant unobservable inputs	Range (weighted average)
Market comparison approach	Price per sqm	KD 4 – 20

The fair value of the investment is determined using the market comparable approach, adjusted for size of plots and location; hence categorized under level 3 of the fair value hierarchy (note 14).

7. Investment in an associate

Details of the associate are shown below.

Name of Company	Principal activity	Country of incorporation	Ownership interest and voting power		
			31 December 2022 %	31 December 2021 %	
Held through GSH USA Weaver Point Capital Advisors, LLC ("Weaver Point")	Real estate advisory	USA	-	65%	

31 December 2022

The Group has accounted for the associate using equity method in accordance with IAS 28: Investment in Associates and Joint Ventures, as the Group does not have power over Weaver Point and the ability to use its power over Weaver Point to affect its returns and hence does not have control over the associate under IFRS 10.

The movement in the carrying value of the associate are as follows:

	Kuwaiti [Dinars
	2022	2021
As at I January	3,631,179	3,843,232
Share of results	-	906,510
Dividend received	-	(353,412)
Foreign currency translation adjustment	-	(9,726)
Impairment of goodwill	-	(755,425)
Disposal	(3,631,179)	-
	-	3,631,179

In March 2022, the Group entered a share repurchase agreement with Weaver Point to dispose its investments for a total purchase cash consideration of USD 14,047,500 payable in seven instalments ending by 31 March 2028. The loss on disposal amounted to US\$ 3,897 (KD 1,193). The consideration is also guaranteed by the minority shareholder's pledge of their interest in favor of the Group.

During the year, the Group received the first instalment of USD 3,000,000 (KD 917,840) from the above consideration and the second instalment of USD 1,540,000 was received on 3 March 2023.

As of 31 December 2022, the consideration receivable amounted to USD 9,405,000 (KD 2,880,752). During the year, the Group recognised income of USD 405,000 (KD 123,946) on this receivable.

8. Investment securities at fair value through other comprehensive income

Kuwaiti D	Kuwaiti Dinars		
2022	2021		
1,860,687	3,619,790		

During the year, the Group disposed a portion of its investments for a total purchase consideration of KD 1,719,206. The loss on disposal amounted to KD 31,181.

9. Investment securities at fair value through profit or loss

3 1		
	Kuwaiti	Dinars
	2022	2021
Unquoted foreign equity securities		1,274,603

During the year, the Group disposed its investments for a total purchase consideration of KD 1,080,000 to the Ultimate Parent Company. The loss on disposal amounted to KD 194,603.

10. Share capital, reserves, directors' remuneration and proposed dividend

a. Share capital

The authorised, issued and fully paid-up share capital of the Company comprises of 50,000,000 (31 December 2021: 100,000,000) shares of 100 fils (31 December 2021: 100 fils) each, which is fully paid in cash.

31 December 2022

The Extraordinary General meeting of the Parent Company's shareholders held on 19 September 2022 resolved to reduce the authorized, issued and paid up share capital by 50,000,000 shares of 100 fils per share amounting to KD 5,000,000.

b. Statutory reserve

In accordance with the Companies Law and the Parent Company's Articles of Association, 10% of the profit for the year attributable to equity holders of the Parent Company before contribution to KFAS, Zakat, and Directors' remuneration has been transferred to statutory reserve. The Group may resolve to discontinue such annual transfers when the reserve equals 50% of the paid-up capital. The statutory reserve is not available for distribution except in certain circumstances stipulated by law.

Distribution of the reserve is limited to the amount required to enable the payment of a dividend of 5% of paid up share capital to be made in years when retained earnings are not sufficient for the payment of a dividend of that amount.

c. Directors' remuneration

The Directors' remuneration of KD 25,000 (2021: KD 55,000) is in accordance with the local regulations and is subject to approval of the shareholders' in the annual general meeting.

d. Dividend

The shareholders at the Annual General Meeting (AGM) held on 10 May 2022 approved a cash dividend of KD 1,000,000 for the year ended 31 December 2021 (2020: KD 1,000,000).

11. Lease Liabilities

	Kuwaiti [Dinars
	2022	2021
As at I January	415,066	52,128
Add: Addition		477,286
Finance Costs	21,797	9,342
Lease payments	(106,020)	(123,690)
As at 31 December	330,843	415,066
The above is segregated as:		
	Kuwaiti [Dinars
	2022	2021
Current	83,503	56,805
Non-Current	247,340	358,261
	330,843	415,066

The Group does not have any lease contracts that contains variable lease payments not included in the measurement of lease liabilities.

12. Related party transaction

Related parties represent the Ultimate Parent Company, key management personnel of the Group and entities controlled, jointly controlled or significantly influenced by such parties. Pricing policies and terms of these transactions are approved by the Parent Company's management.

Balances and transactions with related parties included in the consolidated financial statements are as follows:

31 December 2022

	Kuwaiti Dinars	
	2022	2021
Consolidated statement of financial position:		
Investment securities at fair value through profit or loss (note 9)	-	1,274,603
Consolidated statement of income:		
Other income	240	1,605
General and administrative expenses	(42,000)	(24,168)
Key management compensation		
Salaries and other short term benefits	212,387	237,018
Employees' end of services benefits	21,229	14,733
	233,617	251,751

13. Risk management

Risk is inherent in the Group's activities but it is managed through a process of ongoing identification, measurement and monitoring, subject to risk limits and other controls. This process of risk management is critical to the Group's continuing profitability and each within the Group is accountable for the risk exposures relating to his or her responsibilities.

The Group is exposed to credit risk, liquidity risk and market risk, the latter being subdivided into profit rate risk, foreign currency risk and equity price risk. The Group's policy is to monitor those business risks through the Group's strategic planning process. No changes were made in the risk management objectives, policies or processes during the years ended 31 December 2022 and 31 December 2021.

Credit Risk

Credit risk is the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation. Financial assets, which potentially subject the Group to credit risk, consist principally of bank balances and other receivables. The Group's bank balances is held with high credit quality banks and financial institutions. The Group seeks to limit its credit risk also by dealing with credit worthy counter parties and regularly monitoring its outstanding receivables.

Gross Maximum Exposure to credit risk

The table below shows the maximum exposure to credit risk for the components of the consolidated statement of financial position. The maximum exposure is shown gross, before the effect of mitigation through the use of master netting and collateral agreements, if any:

				uwaiti Dinars		31 Doc	ember 202 l
	Approach	Gross carrying amount at default	ECL	Net carrying amount	Gross carrying amount at default	ECL	Net carrying amount
Accounts receivable	General	339,604	(5,260)	334,344	805,304	(13,984)	791,320
Bank balances	General	2,986,486	-	2,986,486	3,812,739	-	3,812,739
		3,371,652	(5,260)	3,320,830	4,618,043	(13,984)	4,604,059

The net decrease in the loss allowance during the year is mainly attributed to the decrease in gross exposures at default. The Group writes off a receivable when there is information indicating that the debtor is in severe financial difficulty and there is no realistic prospect of recovery.

31 December 2022

Where financial instruments are recorded at fair value the amounts shown above represent the current credit risk exposure but not the maximum risk exposure that could arise in the future as a result of changes in values.

The Group does not have any other significant credit risk exposure to any single counterparty or any group of counterparties having similar characteristics. It is not the practice of the Group to obtain collateral against receivables.

Liquidity risk

Liquidity risk is the risk that the Group will encounter difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financials assets. To manage this risk, the Group periodically assesses the financial viability of customers and invests in short term investments including deposits that are readily realisable. The maturity profile is monitored by management to ensure adequate liquidity is maintained.

All the financial liabilities of the Group are payable within one year from the consolidated statement of financial position date.

Market risk

Market risk is the risk that the fair value or future cash flow of a financial instrument will fluctuate because of changes in market prices. Market risk comprises of three types of risks: currency risk, interest rate risk and equity price risk.

Profit rate risk

Profit rate risk arises from the possibility that changes in profit rates will affect future profitability or the fair values of financial instruments. The Group is not significantly exposed to profit rate risk as a result of mismatches of profit rate re-pricing of assets and liabilities since it does not hold significant floating rate Islamic financial assets and Islamic financial liabilities that could have a material impact on the Group's profit.

Currency risk

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to changes in foreign exchange rates.

The Group monitors the positions on an ongoing basis to ensure positions are maintained within established limits and performs a continuous assessment of the Group's open positions and current and expected exchange rate movements.

The effect on profit (due to change in the fair value of monetary assets and liabilities), with all other variables held constant is shown below as at 31 December:

		Kuwaiti Dinars Effect on profit	
	Change percentage		
Currency	(+/-)	2022	2021
USD	3%	215,165	272,658
GBP	3%	6,892	3,374

Equity price risk

Equity price risk is the risk that the value of financial instruments will fluctuate as a result of changes in market prices, whether these changes are caused by factors specific to individual instrument or its issuer or factors affecting all instruments, traded in the market. Equity price risk is managed by the Group through diversification of investments in terms of geographical distribution and industry concentration.

The Group has unquoted equity securities in fair value through other comprehensive income category where the impact of changes in equity prices will only be reflected in the consolidated statement of other comprehensive income when the financial asset is sold or deemed to be impaired. The Group is not exposed to any other equity price risk.

Prepayment risk

Prepayment risk is the risk that the Group will incur a financial loss because its customers and counterparties repay or request repayment earlier or later than expected. The Group is not significantly exposed to prepayment risk.

31 December 2022

14. Fair value measurement

The following table provides the fair value measurement hierarchy of the Group's assets.

Financial assets	Fair valu	ie as at	Fair value hierarchy	Valuation techniques and Key inputs	Significant unobservable inputs	Relationship of unobservable inputs to fair value
	31 December 2022	31 December 2021				
Investment securities at fair value through profit or loss		1,274,603	Level 3	Valuation based on adjusted price/book multiples	Adjusted book value of market price	The higher the market risk, the lower the fair value
Investment securities at fair value through other comprehensive income		3,619,790	Level 3	NAV Basis	Net Assets Value	The higher the NAV, the higher the fair value
Investment properties	50,000	334,363	Level 3	Market comparison approach	Price per sqm	N/A
	1,910,687	5,228,756				

The following table shows a reconciliation of the opening and closing amount of Level 3 assets which are recorded at fair value.

		Kuwaiti Dinars			
	l January	Gain/(loss) recorded in the consolidated statement of income	Gain/(loss) recorded in comprehensive income	Net purchase, sales and settlements	31 December
Level 3 2022	5,228,756	(355,709)	(39,897)	(2,922,463)	1,910,687
2021	7,453,097	(30,840)	280,362	(2,473,863)	5,228,756

15. Capital risk management

The primary objective of the Group's capital management is to ensure that it maintains healthy capital ratios in order to support its business and maximize shareholder value. The Group manages its capital structure and makes adjustments to it, in light of changes in economic conditions. To maintain or adjust the capital structure, the Group may adjust the dividend payment to shareholders, return capital to shareholders, issue new shares or borrow from Islamic financial institutions.

No changes were made in the objectives, policies or processes during the year ended 31 December 2022 and 31 December 2021. Total capital is calculated as equity, as shown in the consolidated statement of financial position, plus net debt. The Group has no external borrowings.

AUDIT COMMITTEE REPORT 2022

Gatehouse Capital – Economic and Financial Consultancy K.S.C (Closed) and Subsidiaries, Kuwait CONSOLIDATED FINANCIAL STATEMENTS AND INDEPENDENT AUDITOR'S REPORT 31 December 2022

Name	Position	Membership
Fahed F. Boodai	Chairman	Non-executive
Abdulaziz Saud Al-Bader	Vice Chairman	Non-executive
Mohamad Tawfik Al-Tahawy	Board Member	Non-executive
Abdullah Ibrahim Al-Ghanim	Board Member	Independent
Khaled Abdullateef Al-Baijan	Board Member	Executive

31 December 2022

1.4 Executive Management

The Board of Directors entrusted the Company's Acting CEO, Mr. Khaled Abdullateef Al-Baijan, with all day-to-day operations and administration of the Company. The key responsibilities of CEO include:

- Co-developing the strategic and financial plans with the Board of Directors, and implementation and monitoring of the same.
- Promoting the culture of transparency, honesty, teamwork and social responsibility.
- Ensure development, implementation and continuous oversight of the Company's risks and internal control frameworks/systems.
- Providing the Board of Directors with the timely and accurate information for effective decision-making.
- Updating the Board of Directors with all matters and issues that affect the Company.
- Managing the Company in line with the corporate policies, budget and business plan and the strategy approved by the Board of Directors, and making the appropriate decisions as per the Delegation of Authority Matrix.
- Appointing external competent Authority to do an external audit function to ensure that the best auditing methods adopted by the competent authorities are followed..

2. Standards of Inspection

We conducted our inspection as per the standards in the "Internal Audit – Integrated Framework" Book issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). As per the Framework, the internal control is "a process, effected by an entity's Board of Directors, management and other personnel, designed to provide reasonable assurance of the achievement of objectives in the following categories: Effectiveness and Efficiency of Operations, Reliability of Financial Reporting and Compliance with the applicable Laws and Regulations".

2.1 Categories of Objectives

The Framework provides for three categories of objectives, which allow organizations to focus on differing aspects of internal control:

- **Operations Objectives** -These pertain to effectiveness and efficiency of the entity's operations, including operational and financial performance goals, and safeguarding assets against loss.
- **Reporting Objectives** -These pertain to internal and external financial and non-financial reporting and may encompass reliability, timeliness, transpar¬ency, or other terms as set forth by regulators, recognized standard setters, or the entity's policies.
- Compliance Objectives These pertain to adherence to laws and regulations to which the entity is subject.

2.2 Internal Control Components and Principles

The Board of Directors has approved general policies and procedures for the internal audit systems that cover all the company's activities and departments and defines the company's control work strategy and the responsibilities, duties, and tasks of the company's employees. The Audit Committee of the Board of Directors follows up on the implementation of these policies and procedures. The effectiveness of the internal control systems, as well as the observations and reports submitted to the committee were discussed according to the path of reporting at the different levels of the company's departments, to achieve double control. The committee also held periodic meetings in which it discussed reports related to the various departments of the company. In those meetings, all control observations issued by the internal auditor were discussed, and previous observations were reviewed and the extent of response to those observations, in order to identify the risks and obstacles that the company may be exposed to, the degree of their importance, and an attempt to avoid These risks, as well as ensuring that the control functions of the various departments of the company are set correctly, in addition to the availability of human competencies and the necessary and appropriate control tools to achieve effective internal control. The audit committee also reviews the proposed plan for audit work within the company, to maintain the periodicity of the committee's meetings according to a predetermined agenda and dates. In accordance with the requirements of the Capital Markets Authority, the committee took the necessary steps

31 December 2022

to implement the new corporate governance instructions, which included updating the existing audit procedures and preparing records for recording the committee's minutes, decisions, and agendas. An independent external audit office was also contracted to express an opinion and prepare a review report for internal control systems ICR for the year ending December 31, 2022. Both the Board of Directors and the Executive Management are committed to providing clear written undertakings about the validity and integrity of the annual financial statements and financial reports related to the company's activity, and that they include all the financial aspects of the company and its operational results, and that they are prepared in accordance with International Financial Reporting Standards. In the end, the Audit Committee considers that the follow-up and supervision work it carried out, and the procedures for reviewing the auditors' reports and the applicable internal control and control systems, indicate that Gatehouse Capital for Economic and Financial Consulting enjoys an appropriate control environment for its activities, and does not stand in the way of achieving its objectives and that the company is making progress In the effectiveness of the monitoring system and compliance with the laws and regulations issued by the regulatory authorities. The Audit Committee performs its role in reviewing and supervising the reports of the external auditors regarding the company's quarterly and annual financial statements before presenting them to the Board of Directors - and meeting with the auditors if necessary - in order to ensure the integrity of the company's financial statements, and the independence and integrity of the external auditor whose opinion remains independent and attached to the contents of the company's annual report.

The COSO Internal Control Framework includes five integrated components and seventeen principles, as follows:

I. Control Environment:

The control environment is the set of standards, processes, and structures that provide the basis for carrying out internal control across the organization. The Board of Directors and senior management establish the tone at the top regarding the importance of inter¬nal control including expected standards of conduct.

The following are the five principles that relate to the internal control:

- 1. The organization demonstrates a commitment to integrity and ethical values.
- 2. The Board of Directors demonstrates independence from management and exer¬cises oversight of the development and performance of internal control.
- 3. Management establishes, with board oversight, structures, reporting lines, and appropriate authorities and responsibilities in the pursuit of objectives.
- 4. The organization demonstrates a commitment to attract, develop, and retain competent individuals in alignment with objectives.
- 5. The organization holds individuals accountable for their internal control responsibilinaties in the pursuit of objectives.

2. Risk Assessment:

Risk assessment involves a dynamic and iterative process for identifying and assessing risks to the achievement of objectives. Risk assessment forms the basis for determining how risks will be managed. Risk assessment requires management to consider the impact of pos¬sible changes in the external environment and within its own business model that may render internal control ineffective.

There are four principles that relate to Risk Assessment. These are:

- 1. The organization specifies objectives with sufficient clarity to enable the identificantion and assessment of risks relating to objectives.
- 2. The organization identifies risks to the achievement of its objectives across the entity and analyzes risks as a basis for determining how the risks should be managed.
- 3. The organization considers the potential for fraud in assessing risks to the achieve¬ment of objectives.
- 4. The organization identifies and assesses changes that could significantly impact the system of internal control.

31 December 2022

3. Control Activities:

Control activities are the actions established through policies and procedures that help ensure that management's directives to mitigate risks to the achievement of objectives are carried out. Control activities are performed at all levels of the entity, at various stages within business processes, and over the technology environment.

There are three principles that relate to Control Activities. These are:

- I. The organization selects and develops control activities that contribute to the mitigation of risks to the achievement of objectives to acceptable levels.
- 2. The organization selects and develops general control activities over technology to support the achievement of objectives.
- 3. The organization deploys control activities through policies that establish what is expected and procedures that put policies into action.

4. Information and Communication:

Information is necessary for the entity to carry out internal control responsibilities to support the achievement of its objectives. Management obtains or generates and uses relevant and quality information from both internal and external sources to support the functioning of other components of internal control. Communications enables personnel to receive a clear message from senior management that control responsibilities must be taken seriously.

There are three principles that relate to Information and Communication. These are:

- 1. The organization obtains or generates and uses relevant, quality information to support the functioning of internal control.
- 2. The organization internally communicates information, including objectives and responsibilities for internal control, necessary to support the functioning of internal control.
- 3. The organization communicates with external parties regarding matters affecting the functioning of internal control.

5. Monitoring Activities:

Ongoing evaluations, separate evaluations, or some combination of the two are used to ascertain whether each of the five components of internal control, including controls to effect the principles within each component, is present and functioning. Findings are evaluated and deficiencies are communicated to management and the Board of Direc¬tors as appropriate.

There are two principles that relate to Monitoring Activities. These are:

- 1. The organization selects, develops, and performs ongoing and/or separate evaluations to ascertain whether the components of internal control are present and functioning.
- 2. The organization evaluates and communicates internal control deficiencies in a timely manner to those parties responsible for taking corrective action, including senior management and the Board of Directors, as appropriate.

2.3 Limitations in Internal Control

The Framework recognizes that while internal control provides reasonable assurance of achieving the entity's objectives, limitations do exist. Even an effective system of internal control can experience a failure. Limitations may result from the:

- Suitability of objectives established as a precondition to internal control
- Reality that human judgment in decision making can be faulty and subject to bias
- Breakdowns that can occur because of human failures such as simple errors
- Ability of management to override internal control
- · Ability of management, other personnel, and/or third parties to circumvent controls through collusion
- External events beyond the organization's control.

Gatehouse Capital - Economic and Financial Consultancy K.S.C. (Closed) and Subsidiaries Kuwait

AUDIT COMMITTEE REPORT "EVALUATION OF INTERNAL CONTROL SYSTEMS"

31 December 2022

These limitations preclude the board and management from having absolute assurance of the achievement of the entity's objectives—that is, internal control provides reason¬able but not absolute assurance.

6. Findings

Based on the evaluation carried out by the Audit Committee for the internal control systems, the Committee did not observe any exception that may significantly affect achievement of the Company's objectives. The in-house internal control systems is functioning in efficient and effective manner. We would like to underline that the internal control systems does not ensure identification of all violations and incompliance, and should be considered as an aid for better management not alternatives of the responsibilities entrusted to the management for oversight and evaluation.

Due to limitations in any internal control system, errors and violations may occur and may go undetected. All precautions must be taken when implementing the findings of the current evaluation in future, as there is a risk that the procedure would be inadequate due to the changing conditions or because compliance with the applied procedures would deteriorate.
